

Tuff TT

Tuff TT Implants share the same three-thread zone concept as Tuff implants. The taper top converging coronal shape allows platform switch technology to prevent crestal bone loss.

Material: Titanium (Ti6Al4V ELI)

Treatment: RBM

Available in two neck textures (See page 8 for more information)

Drill Sequence*

Bone type D1, D2

Drill Sequence*

Bone type D3, D4

* The proposed procedure is only a recommendation and should not replace the doctor's judgment. The implants may be placed in immediate function when good primary stability has been achieved and with appropriate occlusal loading.
